FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Public Safety - Alcohol and Tobacco Control, Department of Revenue**, and the **Office of the State Courts Administrator** each assume the proposal would not fiscally impact their respective agencies.

Officials from the **Department of Elementary and Secondary Education (DESE)** state there is no anticipated state cost to the foundation formula associated with this proposal. To the extent fine revenues exceed 2004-2005 collections, any increase in this money distributed to school districts increases the deduction in the foundation formula the following year. Therefore, the affected districts will see an equal decrease in the amount of funding received through the formula the following year unless the affected districts are hold-harmless, in which case the districts will not see a decrease in the amount of funding received through the formula (any increase in fine money distributed to the hold-harmless districts will simply be additional money). An increase in the deduction (all other factors remaining constant) reduces the cost to the state of funding the formula.

Oversight assumes any increase or decrease in fine or penalty revenues generated cannot be determined. Therefore, the fiscal note does not reflect any fine or penalty revenues for the local school districts.

Officials from the Office of Prosecution Services, Branson Public Schools, Independence Public Schools, and Columbia Public Schools did not respond to our request for fiscal impact.
